

Steven C. Schultz
Corporate Energy Manager, 3M

Steve is responsible for the development and execution of corporate energy strategies for 3M operations worldwide. His department develops tools and resources that 3M facilities can use to improve efficiency and supports a network of energy champions who lead the energy program at 3M manufacturing plants. Steve's department coordinates 3M's participation in various voluntary programs such as the ENERGY STAR program which has awarded 3M the Sustained Excellence award for five consecutive years.

During his twenty-nine year career with 3M, Steve has held positions in manufacturing, engineering and energy management. Steve has been responsible for 3M's energy management program for the past eleven years.

Steve is a Certified Energy Manager with the Association of Energy Engineers and was named a Champion of Energy Efficiency by the American Council for an Energy Efficiency Economy. He participates in an advisory role with the U.S. Department of Energy Industrial Technologies Program.
